

Rys. nr 3.2.17

The geological cross-section illustrates the Dnieper River valley and its surrounding geological structure. The river is shown at the top, with its bed level indicated by a dashed line. The valley floor is composed of various geological units, including:

- OM13-1**: A unit at the top left, with elevations ranging from 138.20 to 137.50.
- DD42b**: A unit in the middle left, with elevations ranging from 136.00 to 135.00.
- DD42a**: A unit in the middle left, with elevations ranging from 136.00 to 135.00.
- rzut O-15**: A unit in the middle left, with elevations ranging from 135.00 to 134.80.
- DD42**: A unit in the middle left, with elevations ranging from 134.50 to 134.80.
- rzut D132**: A unit in the middle left, with elevations ranging from 134.80 to 134.50.
- rzut D130**: A unit in the middle right, with elevations ranging from 136.40 to 134.50.
- DD41**: A unit in the middle right, with elevations ranging from 134.50 to 132.40.
- DD65**: A unit at the bottom right, with elevations ranging from 132.40 to 130.00.

The cross-section also shows various geological units and their elevations, including:

- Qhh**: Quaternary deposits, with elevations ranging from 138.20 to 137.50.
- Qh**: Quaternary deposits, with elevations ranging from 136.00 to 135.00.
- Qhf**: Quaternary deposits, with elevations ranging from 135.00 to 134.80.
- Qpg**: Quaternary deposits, with elevations ranging from 136.40 to 134.50.
- Qpl**: Quaternary deposits, with elevations ranging from 132.40 to 130.00.
- Qp**: Quaternary deposits, with elevations ranging from 130.00 to 128.00.
- Qp1**: Quaternary deposits, with elevations ranging from 128.00 to 126.00.
- Qp2**: Quaternary deposits, with elevations ranging from 126.00 to 124.00.
- Qp3**: Quaternary deposits, with elevations ranging from 124.00 to 122.00.
- Qp4**: Quaternary deposits, with elevations ranging from 122.00 to 120.00.
- Qp5**: Quaternary deposits, with elevations ranging from 120.00 to 118.00.
- Qp6**: Quaternary deposits, with elevations ranging from 118.00 to 116.00.
- Qp7**: Quaternary deposits, with elevations ranging from 116.00 to 114.00.
- Qp8**: Quaternary deposits, with elevations ranging from 114.00 to 112.00.
- Qp9**: Quaternary deposits, with elevations ranging from 112.00 to 110.00.
- Qp10**: Quaternary deposits, with elevations ranging from 110.00 to 108.00.
- Qp11**: Quaternary deposits, with elevations ranging from 108.00 to 106.00.
- Qp12**: Quaternary deposits, with elevations ranging from 106.00 to 104.00.
- Qp13**: Quaternary deposits, with elevations ranging from 104.00 to 102.00.
- Qp14**: Quaternary deposits, with elevations ranging from 102.00 to 100.00.
- Qp15**: Quaternary deposits, with elevations ranging from 100.00 to 98.00.
- Qp16**: Quaternary deposits, with elevations ranging from 98.00 to 96.00.
- Qp17**: Quaternary deposits, with elevations ranging from 96.00 to 94.00.
- Qp18**: Quaternary deposits, with elevations ranging from 94.00 to 92.00.
- Qp19**: Quaternary deposits, with elevations ranging from 92.00 to 90.00.
- Qp20**: Quaternary deposits, with elevations ranging from 90.00 to 88.00.
- Qp21**: Quaternary deposits, with elevations ranging from 88.00 to 86.00.
- Qp22**: Quaternary deposits, with elevations ranging from 86.00 to 84.00.
- Qp23**: Quaternary deposits, with elevations ranging from 84.00 to 82.00.
- Qp24**: Quaternary deposits, with elevations ranging from 82.00 to 80.00.
- Qp25**: Quaternary deposits, with elevations ranging from 80.00 to 78.00.
- Qp26**: Quaternary deposits, with elevations ranging from 78.00 to 76.00.
- Qp27**: Quaternary deposits, with elevations ranging from 76.00 to 74.00.
- Qp28**: Quaternary deposits, with elevations ranging from 74.00 to 72.00.
- Qp29**: Quaternary deposits, with elevations ranging from 72.00 to 70.00.
- Qp30**: Quaternary deposits, with elevations ranging from 70.00 to 68.00.
- Qp31**: Quaternary deposits, with elevations ranging from 68.00 to 66.00.
- Qp32**: Quaternary deposits, with elevations ranging from 66.00 to 64.00.
- Qp33**: Quaternary deposits, with elevations ranging from 64.00 to 62.00.
- Qp34**: Quaternary deposits, with elevations ranging from 62.00 to 60.00.
- Qp35**: Quaternary deposits, with elevations ranging from 60.00 to 58.00.
- Qp36**: Quaternary deposits, with elevations ranging from 58.00 to 56.00.
- Qp37**: Quaternary deposits, with elevations ranging from 56.00 to 54.00.
- Qp38**: Quaternary deposits, with elevations ranging from 54.00 to 52.00.
- Qp39**: Quaternary deposits, with elevations ranging from 52.00 to 50.00.
- Qp40**: Quaternary deposits, with elevations ranging from 50.00 to 48.00.
- Qp41**: Quaternary deposits, with elevations ranging from 48.00 to 46.00.
- Qp42**: Quaternary deposits, with elevations ranging from 46.00 to 44.00.
- Qp43**: Quaternary deposits, with elevations ranging from 44.00 to 42.00.
- Qp44**: Quaternary deposits, with elevations ranging from 42.00 to 40.00.
- Qp45**: Quaternary deposits, with elevations ranging from 40.00 to 38.00.
- Qp46**: Quaternary deposits, with elevations ranging from 38.00 to 36.00.
- Qp47**: Quaternary deposits, with elevations ranging from 36.00 to 34.00.
- Qp48**: Quaternary deposits, with elevations ranging from 34.00 to 32.00.
- Qp49**: Quaternary deposits, with elevations ranging from 32.00 to 30.00.
- Qp50**: Quaternary deposits, with elevations ranging from 30.00 to 28.00.
- Qp51**: Quaternary deposits, with elevations ranging from 28.00 to 26.00.
- Qp52**: Quaternary deposits, with elevations ranging from 26.00 to 24.00.
- Qp53**: Quaternary deposits, with elevations ranging from 24.00 to 22.00.
- Qp54**: Quaternary deposits, with elevations ranging from 22.00 to 20.00.
- Qp55**: Quaternary deposits, with elevations ranging from 20.00 to 18.00.
- Qp56**: Quaternary deposits, with elevations ranging from 18.00 to 16.00.
- Qp57**: Quaternary deposits, with elevations ranging from 16.00 to 14.00.
- Qp58**: Quaternary deposits, with elevations ranging from 14.00 to 12.00.
- Qp59**: Quaternary deposits, with elevations ranging from 12.00 to 10.00.
- Qp60**: Quaternary deposits, with elevations ranging from 10.00 to 8.00.
- Qp61**: Quaternary deposits, with elevations ranging from 8.00 to 6.00.
- Qp62**: Quaternary deposits, with elevations ranging from 6.00 to 4.00.
- Qp63**: Quaternary deposits, with elevations ranging from 4.00 to 2.00.
- Qp64**: Quaternary deposits, with elevations ranging from 2.00 to 0.00.
- Qp65**: Quaternary deposits, with elevations ranging from 0.00 to -2.00.
- Qp66**: Quaternary deposits, with elevations ranging from -2.00 to -4.00.
- Qp67**: Quaternary deposits, with elevations ranging from -4.00 to -6.00.
- Qp68**: Quaternary deposits, with elevations ranging from -6.00 to -8.00.
- Qp69**: Quaternary deposits, with elevations ranging from -8.00 to -10.00.
- Qp70**: Quaternary deposits, with elevations ranging from -10.00 to -12.00.
- Qp71**: Quaternary deposits, with elevations ranging from -12.00 to -14.00.
- Qp72**: Quaternary deposits, with elevations ranging from -14.00 to -16.00.
- Qp73**: Quaternary deposits, with elevations ranging from -16.00 to -18.00.
- Qp74**: Quaternary deposits, with elevations ranging from -18.00 to -20.00.
- Qp75**: Quaternary deposits, with elevations ranging from -20.00 to -22.00.
- Qp76**: Quaternary deposits, with elevations ranging from -22.00 to -24.00.
- Qp77**: Quaternary deposits, with elevations ranging from -24.00 to -26.00.
- Qp78**: Quaternary deposits, with elevations ranging from -26.00 to -28.00.
- Qp79**: Quaternary deposits, with elevations ranging from -28.00 to -30.00.
- Qp80**: Quaternary deposits, with elevations ranging from -30.00 to -32.00.
- Qp81**: Quaternary deposits, with elevations ranging from -32.00 to -34.00.
- Qp82**: Quaternary deposits, with elevations ranging from -34.00 to -36.00.
- Qp83**: Quaternary deposits, with elevations ranging from -36.00 to -38.00.
- Qp84**: Quaternary deposits, with elevations ranging from -38.00 to -40.00.
- Qp85**: Quaternary deposits, with elevations ranging from -40.00 to -42.00.
- Qp86**: Quaternary deposits, with elevations ranging from -42.00 to -44.00.
- Qp87**: Quaternary deposits, with elevations ranging from -44.00 to -46.00.
- Qp88**: Quaternary deposits, with elevations ranging from -46.00 to -48.00.
- Qp89**: Quaternary deposits, with elevations ranging from -48.00 to
